It is also probable that a permanent organization will be effected.

Hev. Dr. J. S. Dill, pastor of Venable-Street Baptist church, will preach the anniversary sermon before the Laties' Missionary Society of Stockton-Street Baptist church to.night. The services will begin at 8 o'clock, and the Doctor's subject will be "A Woman's Gift."

Rev. T. C. Skinner, of Richmond College, will preach at Cowardin Avenue Christian church this morning and night. He will continue to fill Rev. Mr. Irain-ham's puipit during the latter's absence from the city.

NO EMPLOYEES PUT OFF. There seems to be no truth in the report that a number of the Danville-shop employees had been put off. The rumor evidently started from the fact that the shops are now only working half time. There seems to be a general feeling that this state of things will not last long. It is understood that the new almshouse arrangement for taking care of the poor of the city is working splendidly. The chairman of the committee says about 60 per cent, over the former plan was saved last month, and he thought that in a short while about 95 per cent, would be saved.

Secretary Silvey stands face to face with what he considers a very uncomfortable state of affairs. Annually the money to defray the expenses of the delegates to the convention has been placed in the State Bank for this purpose. This was done this year, but according to the new policy of the banks in regard to paying checks the secretary and treasurer can only draw \$50 of this fund. He will of course have to give all the farmers certified checks and they will get them cashed as best they can.

NEW YORK STOCK MARKET. New York, August 12.—The sales of railway and miscellaneous stocks to-day aggregated only 51,000 shares. THE OPENING IRREGULAR.

At the opening the market was very irregular, a few stocks showing declines and others advances, but the changes either way, outside of American Sugar and Lacknwanna, were slight. About 11 clock a fair demand set in for Chicago f Gas, St. Paul, Rock Island, Burlington and Quincy, and Lake Shore. The market held tolerably firm until the publication of the bank statement. The exhibit was not favorable. The banks had loss \$2,713,000 in cash, expanded their loans \$3,078,000, and decreased their liabilities \$741,700. A GENERAL DECLINA

This showing created a bearish feeling and a general decline followed. Northern Pacific was particularly weak. London and Berlin had selling orders in the stock. Northern Pacific preferred dropped from 21% to 18% and the common from 7% to 6%. Union Pacific was heavy, declining about two points on the application for a receiver for the Union Pacific. Denver and Guif. The general list fell 3% to 1% per cent. Among the specialities United States Rubber preferred declined 7, to 70: Consolidated Gas 3%, to 118, and Nashville and Chattanooga 4, to 56. Northwest preferred jumped 4% to 135.

Just previous to the close there was a raily of small proportions, but the tone of the market was rather weak.

CHICAGO.

CHICAGO. August 12.—Pardridge's short line of wheat is looming up as a factor in the market. He has had perhaps 700,000 oushels called from him on each of the past three days. He has been a soller in the put on buiges besides, and is said to be short 4,000,000 bushels. It is goesip that he is fighting the advance tooth and nail. After a period of hesitation, due to cholera talk, there was another big buige in wheat to-day, September closing at an advance of 114c. December gained 13c. Corn is 45c. better, although the general raine must have greatly improved the crop prospects. Provisions were very duil, and averaged easier in price, but closed at about yesterday's figures. Wheat started off weak and lewer, but soon made a sharp dash upward. There were a good many selling orders early, and as the shorts had been pretty well gathered in yesterday there was not much demand. Later in the day confidence was restored by the fact that the exchange was easier, being quoted at from par to \$5 per \$1,000 discount, and buying was resumed, but with very little for sale. The shorts got badly trightened and began to climb over each other in their efforts to even up, and the investment demand increased in boldiness and volume. N. B. Ream was active in badding the market up. Cables, too, were stronger and higher, and the export clearances were again liberal. The receipts of primary markets were mearly 1,000,000 bushes it ses than the preceding week and it is calculated that the visible supply will show a fair decrease, while the corresponding week a year ago there was an increase of \$1.74,000 bushes these than the preceding week and the secretary's closing. The market then fluctuated within a small range, and advanced \$5c, for September and \$6c, for December, eased of \$5a,9c, and then railled sharply, prices advancing \$25c, on the top. If any one in the corn trade had precided a week ago that the market could have been put slown as a lunatic. That is what occurred this morning

many. Freights were slow, with rates unchanged.

Crimson or German Clover.

(Also called Scarlet Clover.)

A more valuable crop than this does not exist. As an improver of the soil, or for an early sum-mer forage or hay crop it is unsurpassed. As a green manuring crop for GRAIN, COTTON OF TRUCKING CROPS, it gives the very best results; while for improving poor land it has no equal. First introduced in Virginia fifteen years ago, since which time its growth has rapidly extended until now it is largely grown in nearly every State in the Union.
